GHOST IN THE HEAP

Event Rules:

- This is a team event. Each team should consist of **2-3 members**.
- **Team names must be submitted before the event begins.** The conditions for the team name include - No spaces, only letters and numbers, and no profanity.
- On the day of the event, it will be conducted for the duration of **12 hours**: 11:00AM - 11:00PM
- The event will be conducted in **asynchronous mode.**
- **Discord** will be the official mode of communication.
- The participants are expected to join the discord server sent to them before the event, without fail.
- The participants will be given 3 groups of **4 challenges each**, with an interval of **4 hours**. **Total number of challenges: 3x4 = 12**
- Challenges are of types usually found on hacking CTFs. The catalog of challenges is a mixture of **puzzle-based** and **programming-based** challenges.
  In some challenges, programming knowledge proves beneficial but is not a prerequisite for a majority of the challenges.
- **Each challenge will give an answer, which is to be converted into a flag using the flag retriever (webpage will be provided)**. The flag retriever keeps track of your team name, question number, question-set, the time of submission, and points, and will not return your flag if the wrong answer is submitted.
- Some challenges are directly linked with the flag-retriever and will grant you the flag as an when you have completed the challenge.
- Sharing of the answers between teams may result in disqualification or elimination from the Cryptomania fest itself.
- The teams with the most points will be declared the winner/s.
